Hi Kate,

Got a slight delay but still shooting for getting you the revisions before you get into work on Monday.

Thanks,

Peter

Thanks, Peter! Lin completed her peer reviews over the weekend and I've sent notifications from IOPS (IARC may be taking over your email inbox!). We will look forward to your revisions by the end of this week.

Best,

Kate

Hi Kate,

Sounds reasonable.

Thanks,

Peter

Dear Peter,

Thank you for your email and for your drafts. All of your drafts will undergo peer review, and these comments should inform your revision into a second draft.

Might we ask for the 2nd drafts of all three sections no later than next Friday— 20 February?
That would greatly assist us in assuring timely completion of our pre-meeting preparations.

Best regards,

Kate

Hi Kate,

I've submitted all five documents of the 1.3 series (chemical analysis).

Now I can get on to my reviews that are due soon.

Thanks,

Peter

Hi Kate,

I should be able to get all 5 of the 1.3 series (analytical techniques) documents uploaded by the close of business on Wednesday.

Thanks,

Peter

Hi Kate,

Sorry, one correction. The glyphosate 1.3 should be in the “still expected” category.

Thanks,

Peter

Hi Kate,

Yes, you have it all correct. I'll be able to give you a update on the 1.3 series at the end of today.

Thanks,

Peter

Dear Peter,

Thanks so much for your efforts. Apologies that we may have inadvertently processed a preliminary draft in our efforts to get as much as possible finalised before the meeting.

It would be helpful if you could review the below, and update us on when we may receive any that are still expected:

Being processed and/or in peer review:

01 Malathion 1.1, 1.2

02 Parathion 1.1, 1.2

03 Diazinon 1.1, 1.2

04 Glyphosate 1.1, 1.2 (new ver submitted 7 Feb), 1.3

05 TCVP 1.1, 1.2.

Still expected

01 Malathion 1.3

02 Parathion 1.3

03 Diazinon 1.3

05 TCVP 1.3

Best,

Kate

Subject: team editing of glyphosate production and use

Hi Kate,

I just saw that the pitiful early draft of the glyphosate production and use document is undergoing team editing. I just now completed the revised draft, which is not only actually organized, but includes more recent production volume data. I've uploaded it to IOPS, but have also attached it to this email. Please replace the one currently undergoing team editing with this one.

Thanks,

Peter
